Mr. and Mrs. Harold H. Newsom of Berkeley are here for a week's stay at El Monte Verde. Mrs. Newsom is a sister of Robert Ritchie, the author, and has visited Carmel before.

Was Well Known Here

The sad announcement of the death, in New York, on April 15, of Mrs. Sarah Clark Goodman, wife of Rev. Frederick W. Goodman, has just reached Mrs. A. D. Signor. Mrs. Goodman, whose first husband was the son of Bishop Clark, was a talented and gifted woman, blessed with great wealth. Her gracious presence and generous friendship will leave a void in the hearts of many who knew and loved her.

THE HIGH COST OF MUD

Power costs money to the farmer and to everyone else who must draw loads over our roads. A scientific investigation of the power required to move loads over various kinds of roads discloses some interesting results. To draw a load over a concrete road in an ordinary farm wagon required a pull of 27.6 pounds per ton of gross load. Over a road of asphaltic oil and screenings top over a concrete base the pull was 49.2 pounds; good water-bound macadam, 64.3 pounds good gravel road, 78.2 pounds; dry dirt road, 92 pounds; dirt with mud on top, but firm underneath, 218 pounds; fresh gravel, 263 pounds. No deep mud was available at the time and place the test was made, so that we can only guess what power would have been required.

The difference in power required between good roads and poor is power wasted. The loss is borne not alone by the farmer, but by all of us who consume farm products and who pay to have them hauled to us. When the roads are wet and heavy the farmer can haul but one-eighth of the load to town that he could haul if a first-rate road were available. The United States Office of Public Roads estimates the national excess bill for hauling because of poor roads at $200,000,000 annually.

Mud slows up the business of the entire nation. Dull seasons are the seasons of mud when the farmer cannot get to town with his produce, cannot transact business, so that the business of the town suffers and consequently the business of the nation. Mud means lost time, for the farmer must spend hours instead of minutes upon the road, must make many trips instead of few. Our present need is to turn power and time now lost into productive channels. To do it we must improve our roads.—Los Angeles Times.

WEEKLY GREETING

The great prize to be won by men of ambition today is not money, but recognition as members of the aristocracy of service. Charles Schwab.

PROGRESS

Increasing advertising, desire for more reading matter, a growing city, the coming new Coast Highway—all these things, and more—account for our larger paper this week, and regularly.

Fortunately, and thanks to generous support, we are able to handle the growing business.

With new machinery, modern type, and unbounded enthusiasm and optimism, and a great capacity for work, the Pine Cone will continue its endeavor to be an expression of Carmel's spiritual, material and artistic ideals.

He's Our Producer

The splendid performances given by the Garret and Garden Players, out on Guerrero street, in the Mission, in San Francisco, has won the hearts of the public and the critics. George B. Edwards, in the Pacific Coast Musical Review, concludes a highly commendatory article concerning three one-act plays, as follows:—

"The whole program was a triumph for the director, Garnet Holme. How serene and sure his faith must be to obtain such perfection of detail and ensemble with such primitive means! San Francisco is, fortunately, unconscious of this delicate jewel on her dressing table. I am modest enough to assume that my enthusiasm will not cause her to descend like an avalanche on the Garret and Garden Theatre, making it commercial and common. That would be too bad. For few are the idealists who can withstand the temptation of financial success."

NURSE'S NOTE SHOWS THE GRIT THAT WON WAR

Sorely Wounded Soldier Sees the Job Through.

Carter Glass, secretary of the treasury, copied the following note, among others, from the note book of a Red Cross nurse when he was in France:

"One boy I shall always remember. His right shoulder was practically all shot away and he had a big wound in his back and one in his left eye. But he sat straight up and wouldn't let anybody help him. He didn't say a word while they pulled off the tight clinging gauze from the red, raw, wet flesh that quivered in spite of him. When the first wound was finished all he said was:

"'Do you think I could rest a minute, Doc, before you do the second one?'"

"Red, raw, wet flesh"—American flesh. It was not yellow. Think of that when you are asked to buy of the Victory Liberty Loan, ye who think ye have done enough.

WHOSE WAR WAS IT?

Was it Smith, the banker's war or Jones,' the truckman's war? Was it Labor's war or was it Capital's war? Was it Autocracy's war or was it Liberty's war? Whose war was it?

Figure it out. Then sacrifice everything and subscribe to the Victory Liberty Loan. For it was The People's War.

It isn't paid for. It must be paid for. The Victory Liberty Loan will pay for it. The people must buy because it was their war. The people are Smith and Jones, Labor and Capital.

If it wasn't the People's war it wasn't anybody's war. So don't say "let the banks do it." It was not the bank's war. You might as well say it was Jones' war—let Jones buy the Victory Loan. He would have as much chance to subscribe five or six billion as Smith would.

The man who says "let the banks do it," is yellow. There are about 1,000,000 American lads over in Europe who are sticking it through. They are not saying let somebody else do it.

It's the last loan. Play square.

"The scope of thrift is limitless."—Thomas A. Edison.

The war will not be over until the United States government has honorably met every commitment made in order to win the war.—Carter Glass, Secretary of the Treasury.

Summer Program

Not in the ten years of the existence of our Forest Theatre, until this year, have those interested known in sufficient time, for advertising and other reasons, what the summer plays were to be.

Garnet Holme, producer and manager this year, man of wide experience in the drama, believes in an early start.

Last week the Pine Cone announced the summer program. "Robin Hood" or "Sherwood," the year's big production, is by Alfred Noyes. Those who recall the opera of the same name, with its wealth of scenic and musical beauties, will appreciate what can be done with this play on the Forest Theatre stage and surroundings.

Mrs. E. Chase, a California lady, is the author of "Prince Happy Heart," the summer children's play. It is full of joy and optimism, and with splendid scenic and lighting effects, will make a big hit.

The annual Arts and Crafts play is "Prunella." Many have seen this old-fashioned play, but it is one of those stage offerings that can be witnessed time and again, each time with a new delight. It is not so long ago that Marguerite Clark starred in this play for the movies.

The Western Drama Society has under consideration a number of plays, one of which will be put on early in August.

On July 18 and 19 Jeannette Hoagland and The Woodland Dancers are to give their annual exhibition.

Write your friends about the summer plays—or send them a copy of the Pine Cone.
